

Exercise 6.5

(Objectives 6.7)

Create two python programs **Greet.py** and **TestGreet.py** at the same directory. Greet.py and TestGreet.py have lines as below.

Greet.py	TestGreet.py
<pre>def greet(): print("Good morning") def greetName(name): print("Good morning",name) def greetTwice(): print("Good morning") print("Good morning")</pre>	<pre>greet() Greet.greet(John) Greet.greetwice()</pre>

Run TestGreet.py. Are you given errors? How to correct them?
